School Milk Provisions

Dear Parents

Free School Milk

All children under the age of 5 years old are entitled to a free carton of milk at school daily, up until their 5th birthday. Upon their 5th birthday, the free school milk ceases to be provided.

School Milk

Children who are 5 years and older can have a carton of milk provided daily at school, but this has to be ordered and paid for directly by yourselves through our supplier's website at Milk4Life. This can be arranged, as follows:

- Visit www.milk4life.com and click on the Parents tab.
- Register and add your child or children on the Children tab.
- Then you are able to pay for your milk order via the Payment tab.

Please remember that on-line ordering and payment is only for those children over the age of 5 years old, those under 5 years will automatically receive their milk free up until their 5th birthday.

Milk4Life accept payment for milk either in full term or half term payments, meaning that you will be charged for the termly period in which your child reaches their 5th birthday. Milk4Life are also unable to give refunds for any absences.

If you do choose to order milk then Milk4Life inform school at the beginning of each term, so please ensure that you order in plenty of time before your child's 5th birthday if you wish for the milk to continue seamlessly.

Unfortunately school can not take or make milk orders on your behalf, it must be done directly with Milk4Life by yourselves as parents.

Kind Regards
Jayne Murden
Office Manager
