

WEETON PRIMARY SCHOOL

Computing Intent

At Weeton, we view computing as essential. Children need to embrace technology from an early age if they are to make their way successfully in our ever changing and demanding technological world.

By locating state-of-the-art resources in our classrooms, all children have regular, first-hand experience of the wide range of technology that captures, stores and communicates information.

We instil good computing habits and endeavouring to help our children to know how to stay safe in today's virtual world.

Daily opportunities to use laptops, desktops (a bank in each class) and iPads support these aims. Other regularly used digital equipment includes cameras, videos, data loggers, sound recorders and programmable toys.

All classes have Purple Mash, Espresso Coding, Mathletics and Times Tables Rockstar's logins to support work done throughout the whole Curriculum.

Whilst children have dedicated 'Computer' lessons, computing is very much extended throughout the entire curriculum.
